Professional Objective

I am seeking an opportunity as a developer to apply my knowledge in React, Node.js, JavaScript, and PostgreSQL. I have experience in both front-end and back-end development through participation in projects during bootcamps and personal projects, including the creation of RESTful APIs, utilizing technologies like Vite, Prisma ORM, and applying agile methodologies such as Scrum and Kanban.

Academic Education

- Bachelor's in Software Engineering
  Unopar | 2024 - Present
- Bachelor's in Electrical Engineering
  UFC - Federal University of Ceará | 2016 - 2025

Project Experience

- **Event Management Platform |** Bootcamp Instituto Atlântico Avanti | 2024
  Development of the front-end with Vite, React, and Tailwind CSS. Creation of a RESTful API with Node.js, Express, PostgreSQL, and Prisma ORM. Management of PostgreSQL database.
- **BikeUrban - Bike Sales Platform |** Personal Project | 2024 - Present
  Development of a platform with React.js (front-end) and Node.js with Express (back-end). Integration with MongoDB for data storage.

Certifications

- Complete JavaScript ES6 | Origamid
- React | Origamid
- HTML & CSS for Beginners | Origamid
- Introduction to Java Platform | Dio
- Version Control with Git and GitHub | Dio
- Basic Full Stack Dev | Atlântico Avanti
- Digital Coder Track 24 - Front End | Ada Tech

Technical Skills

- Programming Languages: JavaScript, Python, Java (basic)
- Frameworks and Libraries: React.js, Node.js, Express
- Tools: Git, GitHub
- Databases: PostgreSQL, MongoDB
- Agile Methodologies: Kanban, Scrum
- Other Skills: UX/UI Design, Prisma ORM, Vite

Languages

- English: Intermediate
- Spanish: Intermediate
- French: Basic
